## CALLS ON GOVERNOR WITHOUT WARRANTS AND TELLS PURPOSE

### GOVERNOR THREATENS SUIT IF MOLESTED

**Doubt Governor's Attitude Changed by Sheriff's Friendly Visit—Spends Busy Day—Makes Appointments and Holds Cabinet Conference—New Defense Angle Seen**

(By The Associated Press)  
SPRINGFIELD, Ill., Aug. 8.—Governor Small is safe from arrest for a few hours at least, Sangamon county authorities announced tonight. No effort to serve the three warrants charging the governor with embezzlement of state funds and conspiracy to defraud the people will be made before tomorrow, State's Attorney Mortimer and Sheriff Mester said.  
Tonight's quiet was like a lull before a storm. Sheriff Mester indicated that he plans to arrest the governor tomorrow.  
"He was defiant today as he read to me the opinion of his attorneys," Sheriff Mester said. "When he was thru I told him I had but one thing to do, and that was to serve the warrants, however unpleasant it might be. I went to see him without the warrants and told him there would be no attempt made to serve them today and for that reason nothing more will be done tonight."

### FEDERAL BANK PRINCIPLES ARE STATED CLEARLY

**Denied There Has Been Discrimination Against Interests**

(By The Associated Press)  
WASHINGTON, Aug. 8.—An explanation of banking and monetary principles, which he said have controlled the federal reserve system since its inception, was given today before a congressional commission by Governor Strong, of the New York reserve bank, in defense of charges that in its operations it has discriminated against agricultural credit needs. Deliberate inflation of credit by lowered interest rates with consequent increased prices was resorted to during the war as a military necessity, he said, but deflation and price drops in recent months, he declared, was not forced by the board, but was inevitable and world-wide. Higher interest rates by the reserve system, he declared, as incidental.  
New York, far from being favored, Mr. Strong asserted, had been subjected to pressure by interest rates to liquidate greater than in any other part of the country, altho describing collapse of prices in 1920 as the "most serious in modern times." He said he considered the business situation well embarked now upon a "cycle of recovery," and cited industrial resumption, advancing prices of high grade securities and lower interest rates as symptoms.  
"You cannot very well administer credit without some effect on prices," Governor Strong said, "but the banking machinery was not operated with eyes on a chart of prices to move them up and down."  
The reserve bank rates, he added, "are a reflection of conditions rather than of an endeavor to influence conditions and they are an effect and not a cause."

Dr. and Mrs. J. R. Harker will spend today at Lake Matanzas as guests of Dr. and Mrs. F. A. McCarty, who are at the resort for three weeks' period.

### FEAR FARMERS GET BUSINESS OF GRAIN EXCHANGES

**Farmers Co-Op. Associations Not Wanted as Members**

(By The Associated Press)  
WASHINGTON, Aug. 8.—The senate today passed the Capper-Tincher bill to prohibit gambling-Tincher bill to prohibit right of way in the senate on disposal of the anti-beer bill. Both measures are features of the pre-recess plan for senators, who hope to secure a four or six weeks' recess this week if President Harding should consent to delaying the railroad debt funding bill.  
Passage of the Capper-Tincher bill before the week end is proposed. It has been so amended, it is said, as to secure solid support of the senate agriculture committee.  
Another effort was made today to have the agriculture committee restrict the provision for admission of cooperative associations as members of grain exchanges with the right to rebate commissions. Certain grain exchanges are apprehensive, members asserted, that cooperative associations composed of farmers might gain control of a large part of the grain exchange business. The committee refused to modify the admission provision but agreed to modify slightly its amendment for the rebating of commissions by providing that the commissions should come a part of the earnings of the association to be distributed among its beneficial members.  
The committee reported favorably a resolution introduced by Senator Kenyon, Republican, Iowa, a member of the committee asserting there is a movement of farmers to defeat the admission of cooperative associations to membership in the grain exchanges, directing attention to a report that a fund of \$250,000 had been raised for that purpose and authorizing an investigation of the charges.

### K. OF C. WILL HOLD PICNIC AT OAK LAWN

**Former Annual Event Will Be Revived August 31—Burgoo and Chicken Supper Planned.**

The Jacksonville Knights of Columbus are planning for a big picnic to be held at Oak Lawn on the Morton road, August 31. The affair will be of a public nature, and everyone is invited.  
A program of old-fashioned amusements and athletic contests is being arranged for the afternoon. A band concert will also be one of the attractions.  
Following these, a picnic supper will be served. Rich burgoo and fried chicken will tempt the appetites of those present. Platform dancing will be in order after supper. The big platform which was used for the Mardi Gras dance is to be transported to Oak Lawn and used on this occasion.  
The Knights of Columbus picnic was formerly an annual affair, but has not been held since 1909. The success of this year's event will probably mean the renewal of the custom of holding the picnic annually.  
P. H. Lonergan, chairman of the Knights of Columbus entertainment committee, will have general charge of the picnic. The various committees have not yet been completely formed. More detailed information, together with a complete list of committees, will be announced at a later date.

### LAD STARTED RUNAWAY TRUCK

A truck belonging to Ehnie Bros. was left standing in front of a residence on South East street last night, when a boy at play released the brake and started the motor. Uncontrolled the truck moved down the pavement and speedily came in contact with a telegraph pole. The vehicle was considerably damaged.

### ANTI-BEER BILL PASSED SENATE 39 TO 20 VOTE

**Fourteen Republicans and Six Democrats Voted Against Bill**

(By The Associated Press)  
WASHINGTON, Aug. 8.—The senate today passed the Willson-Campbell anti-beer bill with few important amendments. The vote on the measure which now goes to conference to adjust differences with the house, was 39 to 20.  
Upon being informed of the action, treasury officials said beer regulations drafted and ready for Secretary Mellon's signature, would not be issued, pending action by the senate and house conferees. The regulations would provide for use of medical beer under the ruling of former Attorney General Palmer, a ruling which the bill is designed to overcome.  
The ban against the prescribing of beer by physicians and limitation of prescriptions of wine and whisky contained in the bill as passed by the house were virtually unchanged by the senate and but few important amendments were added. These included a provision to restrict operations of prohibition enforcement officers by prohibiting searches, or any attempts at searching of private property or premises without a search warrant.  
A violation of this clause would be a misdemeanor subject to a fine of \$1,000 and one year's imprisonment. Penalties of five years' imprisonment and \$1,000 fines were provided for persons attempting searches while posing as prohibition agents.  
**Voted Against Passage.**  
Fourteen Republicans and six Democrats voted against passage. Among Republican opponents were Senators Johnson, California; LaFollette, Wisconsin; Lodge, Massachusetts; Penrose, Pennsylvania, and Wadsworth, New York. The six Democratic opponents were Senators Broussard, Louisiana; Gerry, Rhode Island; King, Utah; Pomerene, Ohio; Ransdell, Louisiana, and Stanley, Kentucky.

**Had Narrow Escape.**  
Another amendment rejected would have given physicians power to prescribe wine and distilled spirits in unlimited quantities. The bill limits wine prescriptions to one-fourth of a gallon and that of spirituous beverages to one-half pint by alcoholic content to an individual in ten days. No change was made in the house clause fixing 100 prescriptions as the maximum for a physician in 90 days except by special order of the prohibition commissioner.  
One amendment would permit importation of wines for sacramental purposes when the prohibition officers should determine that the domestic output of such wines was insufficient to meet home demands.

### SOUTHERN CITY TREATS D. O. K. K. ROYALLY

**Elaborate Preparations Made for Entertainment of Visitors—Continuous Parade.**

(By J. E. Scott)  
Chattanooga, Tenn., Aug. 8.—(Special to the Journal)—Everything possible is being done for the entertainment of Knights of Khorassan here. Our delegation on arrival was escorted to Pythian headquarters, where a fine luncheon was served. The afternoon was devoted to auto rides about the city and a special ball game had been arranged. There are thirty-six drill teams, twelve bands and fifteen drum corps. The parade is continuous, and it was certainly a gay night around the big hotel where many of the delegations are quartered.  
The decorations are wonderful and all things point to one of the most successful conclaves in the history of the order.  
**FOUND THE LUCKY DIME**  
Mrs. George Smith found the lucky dime in the big loaf of Federal bread which she purchased on Saturday. Mrs. Smith, who resides at 314 North Prairie street, was given the \$5 prize Monday morning.

### LOSS OF LIFE ON STEAMER ALASKA CANNOT BE TOLD

**167 Persons Saved Out of Total of 214—Records Were Lost**

SAN FRANCISCO, Cal., Aug. 8.—Oil soaked wreckage coating the treacheries of Blunt's Reef, 190 miles north conceals the mystery of some 30 persons missing in the sinking of the coastwise steamer Alaska Saturday night, from which 17 bodies have been recovered. Out of the total 214 persons believed to be aboard, 167 have been saved. The records of the ship and the exact loss of life may never be known for checking thus far shows that several passengers have been rescued whose names did not appear from the company's list of passengers and crew prepared at Portland, the city of departure.  
The check indicates that forty seven may have perished.  
At Eureka, Cal., 40 miles north of the wreck, 17 bodies, 15 of which have been identified as six passengers, including one woman and nine of the crew.  
Meanwhile along the rocky coast patrols continued a search for bodies. In hospitals at Eureka were many injured survivors.  
A score or more survivors reached San Francisco today on the first train from Eureka since their rescue. Outstanding in their recitals of tragedies was the tribute of heroism paid to Captain Harry Hobe, who went down with his ship, of his officers and crew, and the officers and crew of the rescue steamer Anyox.

### SAMEUL RAMSEY HAS NARROW ESCAPE

Samuel Ramsey has returned from a stay of several months in Arkansas. He thinks the state has wonderful attractions, but on account of an experience which he had with lightning, he has little use for the storms there.  
Mr. Ramsey, with three others, was standing near Heber Springs, when a stroke of lightning came down the umbrella he was holding, knocking him almost senseless. Another in the company was knocked senseless, but recovered after being held in the spring for half an hour.

### SEVERAL HELD BY POLICE, KENNEDY MURDER MYSTERY

**Man Shot Down While Searching for a "Lucky Penny"**

(By The Associated Press)  
LOS ANGELES, Cal., 8.—Investigation today by the police of the mystery surrounding the slaying Friday night in a lonely suburb of J. Belton Kennedy led them to replace in jail tonight Mrs. Madeline Obenchain, who was with Kennedy when he was shot, and Arthur C. Burch of Evanston, Ill., a former schoolmate of Mrs. Obenchain and her divorced husband at Northwestern University. No formal charges have been placed against either prisoner.  
Burch was returned to Los Angeles today from Las Vegas, Nev., where he was arrested Saturday night while on his way home from the coast.  
Frm admissions he made today, the police said, they were able to learn that an automobile had been rented the night Kennedy was slain and that the man who obtained the car while giving the name "J. W. Jones," gave his address as that of the home of the only relatives Burch has in Los Angeles. "This car was driven to day to the scene of Kennedy's death, and the police averred that the particular marking of tires was similar to that of the machine used by the slayer of Kennedy."

The keeper of the hotel in which Burch rented a room, across the street from Kennedy's office identified Mrs. Obenchain as the "cousin" who had visited Burch at the hotel room. Burch admitted, Deputy Sheriff Nolan said, that he came to Los Angeles from his home in Evanston on a telegraphic request from Mrs. Obenchain that he rent a room opposite the office of Kennedy and that Mrs. Obenchain, disguised with a wig, visited him at his hotel room.

**Search for Weapon.**  
Search continued unsuccessfully for the shotgun with which Kennedy was shown down while at his summer cottage searching for a "lucky penny" with Mrs. Obenchain, who had obtained a divorce, she said, in order to marry him. She had at first told the police that she had asked Kennedy to go to the cottage to look for this penny which she had buried a year ago, but later said Kennedy suggested the trip. Her story was confused, police said, adding that her version did not coincide with that told by Burch, altho both protested they had no knowledge of the man who did the shooting, and Mrs. Obenchain repeatedly declared her love for Kennedy.

Mrs. Obenchain has admitted she received \$85 from Burch, but said it was in payment for loans made by her while they were both students in Evanston.  
She wrote today to her former husband, Ralph Obenchain, of Chicago asking that he come to her assistance.  
Obenchain when he heard of the trouble his divorced wife was in said he would do all he could for his former school mate, altho she had abandoned him for love of Kennedy.  
Mrs. Obenchain was not permitted to see visitors today. She was reported to be too nervous to meet them.  
Burch appeared collected and self-contained. Both announced that they had arranged for counsel, but no attorneys appeared formally to represent or confer with either.

Repeal of the ten per cent tax on carbonated bottled beverages, paid by the manufacturer monthly, was possible cuts in both taxes and expenditures with the probable amounts of government income from source other than internal revenue. It was said that no formal agreement was reached on any final totals. It is understood that there was a suggestion that the committee appoint a delegation to go over the situation frankly with President Harding and Secretary Mellon with a view to obtaining their counsel as well as urging that the executive departments hold down rigidly on expenditures.

### HELD LONG DISCUSSION

Before undertaking revision of specific sections of the existing revenue law, the committee majority spent several hours discussing possible cuts in both taxes and expenditures with the probable amounts of government income from source other than internal revenue. It was said that no formal agreement was reached on any final totals. It is understood that there was a suggestion that the committee appoint a delegation to go over the situation frankly with President Harding and Secretary Mellon with a view to obtaining their counsel as well as urging that the executive departments hold down rigidly on expenditures.

### TAX ELIMINATION ON VARIOUS ITEMS RECEIVES APPROVAL

**Understood Republican Members of House Ways and Means Committee Reach Agreement on Elimination and Reduction of Various Taxes—Discuss Other Reductions**

(By The Associated Press)  
WASHINGTON, Aug. 8.—Elimination of the tax on soft drinks and ice cream, and the so-called luxury tax on wearing apparel is understood to have been agreed upon today by Republican members of the house ways and means committee meeting in executive session. It also was reported that there had been an agreement to cut in half the ten per cent tax on sporting goods and materials.  
The total loss of revenue from these proposed changes would be slightly less than \$50,000,000 and the reductions are the first to be passed upon by the majority members in their effort to carry out the announced program of Republican house leaders to cut half a billion dollars from the nation's tax bill.

The wearing apparel levies proposed for repeal are ten per cent of the amount of any which the casts of women's and misses' hats, bonnets and hoods, exceed \$15 each; women's, misses' and boys' boots, men's and misses' silk stockings or hose exceed \$2 per pair; men's, women's misses' and boys' boots, shoes, pumps and slippers exceed \$1 per pair; men's and boys' caps exceed \$1 per pair; men's shirts exceed \$3 each; men's and boys' hats exceed \$5 each; men's and boys' caps exceed \$2 each; men's and boys' neckties and neckwear exceed \$2 each; men's, women's misses' and boys' pajamas, night gowns and underwear exceed \$5 each; kimono, petticoats and waists exceed \$15 each; men's waist coats sold separately from suits exceed \$5 each; and house or smoking coats or jackets and lounging robes exceed \$7.50 each.

**Sport Goods Levy**  
The sporting goods or which it is proposed to cut the tax in half includes:  
Tennis racquets, nets, racquet covers and presses, skates, snow shoes, skis, toboggans, canoe paddles and cushions, polo mallets, baseball bats, gloves, masks, protectors, shoes and uniforms, football helmets, harness and goals, basketball baskets and uniforms, golf bags and clubs, lacrosse stocks, balls of all kinds, fishing rods and reels, billiard and pool tables, chess and checker boards and pieces, dice, games and parts of games (except playing cards and children's toys and games) and all similar articles.

It was said that no formal agreement was reached on any final totals. ### ESTIMATED NET LOSS

The net loss in government revenue this fiscal year on this basis would be \$458,000,000 if the repeal of the excess profits and higher income surtaxes were made retroactive to last January 1st, but it was said today that the senate would defer this repeal until next January 1st, was growing. Should the committee finally decide to postpone the date of these revisions, the net loss in revenue on the basis of this set of figures would be \$180,000,000 leaving the total net income for this fiscal year at \$4,110,000,000 exclusive of postal receipts, estimated at \$500,000,000.  
It was indicated today by some committee members that the repeal of the excess profits and higher income surtaxes might be the last of the revisions to be taken up in the hope that meantime sentiment might become more clearly pronounced, particularly as to the effective date of the repeal.

### BREAK IN IRISH PEACE PARLEYS BRIDGED AGAIN

**Premier of England Ordered Release of Last Sinn Feiner**

(By The Associated Press)  
LONDON, Aug. 8.—The threatened break in further peace negotiations between the British government and the Sinn Fein in Ireland was bridged today thru the release from prison of John J. McKeown by order of Premier Lloyd George of representations from Eamonn DeValera. McKeown was in prison under conviction for the murder of Chief Inspector McGrath. All the other members of the Sinn Fein parliament under detention had been released but the authorities of Dublin Castle had refused to set McKeown free. The Irish people claimed McKeown should be accorded the same immunity as granted the other Republicans.

A special courier sent by the Irish Republican cabinet today delivered to Mr. Lloyd George in Paris a message on the situation. Dublin dispatches quoted Mr. DeValera as saying he would not continue negotiations with the British government if the government persisted in holding McKeown in prison. Shortly afterwards, word came from Paris that it had been decided to set McKeown free. In London the incident is considered a victory for the Sinn Fein. The general belief is, however, that the Dublin Castle officials acted without consulting the London government when they issued their notice that McKeown could not be released, and that the London government in the interest of peace overruled them.

An advertisement in Sunday's Journal of a house for rent brought ten replies yesterday. The investor with the courage to build houses for rent could secure tenants by the wholesale.

It may be necessary to increase parcels post rates. Postmaster General Haynes said if the investigation shows that the present rates are causing a deficit that increases will be made. This action would not be at all distasteful to the express companies.

The work of leveling up some of the worst places in Jacksonville street pavements continues. Yesterday men were busy with the rough stretch on West street between Morgan street and College avenue. The street superintendent chooses the spots where the work is most needed. It is possible to make these betterments because of the road district tax paid this year.

Spurgin, the absconding banker, has been traced to Mexico where he is staying on the farm of a "friend." No doubt the former banker thinks that he is safe. Investigation shows that wine and women both had something to do with his fall. He hasn't been caught yet, but sooner or later the hand of the law will reach him. The strange thing is that men of keen business ability yield to temptation and then think that they can escape consequences by

flight. It can't be done successfully. The demand for Chautauqua tickets this year is said to equal that of any previous years. The continued popularity of the local chautauqua has been a surprise to many people. The history of the chautauqua movement in many localities has been a waning interest after the first three or four years. This is not the case here in Jacksonville, and the maintained interest emphasizes both the excellence of the chautauqua management and the fact that people hereabout realize the real value of the chautauqua both from educational and entertainment standpoints.

One of the factors that is making for better business conditions is the early movement of grain to the market. Total figures show that in the month of July this year 66,926,000 bushels of wheat were sent to the terminals by comparison with 29,927,000 in the same month a year ago. True, the price is not as high this year, but neither was the cost of production. The movement to the terminals sends money quickly into the hands of the farmers, and is thus available for the payment of obligations for the making of investments. The chances are that other crops will also move rapidly. Money in circulation is certain to be beneficial to business.

A DEMOCRATIC VIEW

The editor of the New York Times, leading Democratic paper, commenting upon the unemployment conditions says: "Our employment figures are probably misleading. The comparison is made with unprecedented employment when thousands of wage earners became 'invisible.' Now they are returning to 'invisibility' in their old occupations. Many young women are going from factories to their homes or households and thousands of former industrial workers are going to help the farmers." In support of its argument, the Times calls attention to the fact of savings bank deposits which would hard-

ly be if the employment were as bad as reported.

**MOST HOSPITALS SATISFACTORY**  
Surgeon General Cumming of the Public Health Service has testified before the special Senate committee that, although some contract hospitals for the care of insubordinate and sick veterans have been found to be very bad, that is not by any means true of all of them. Contracts in about 10 per cent of the cases have been canceled, according to General Cumming. He reports that at present the Public Health Service has 64 hospitals with a total capacity of 1,862 beds, which will very soon be increased by 3,000 beds upon the opening of three new hospitals.

For the past two Sundays on account of the threatening epidemic among the children Grace Sunday school has not held sessions of the Primary and Beginners Departments. This has cut down the attendance materially.

J. M. SUMMERS TELLS OF VISIT TO MILWAUKEE

**Local Resident Gives Interesting Facts About Recent Visit to Great Wisconsin City.**

The following letter has been written to the Journal by J. M. Summers, who left recently for a visit to Milwaukee. The local man found much of interest there and gives an interesting account of his visit for the benefit of Journal readers:

I left Jacksonville July 3 at 2 o'clock and arrived in Chicago at 8 a. m. I had learned that the boat, "Christopher Columbus," left for Milwaukee at 9, so I at once went to the pier. We were five hours making the trip of 90 miles. The lake was very smooth and it was a very fine trip. We landed at the pier at Milwaukee at 2 o'clock the same day.

The city of Milwaukee has a population of over 500,000 and has for years been famous as a brewery center. One of the breweries occupies a space of more than eight blocks and is now practically idle. Milwaukee is a fine city with its large business buildings and factories. Then the park system is one of the best there is. Washington park in the west side is one of the most prominent and is beautifully laid out. There is a profusion of flowers, trees and shrubbery and the zoo contains a great variety of animals. The park also has a half mile bicycle track and racing, ball games and other sports are provided free of charge to the public.

We also visited Juneau park, which is situated on the lake. This is a very nice park and is named for the founder of the city of Milwaukee. Then we visited Lake park on the east side of the city. This is a beautiful natural park, abundantly supplied with seats and playgrounds and walks and drives. A band concert is given once a week at this park and we had the pleasure of attending one of them. In this park is a statue of Brigadier General Erasmus B. Wolcott, mounted on a horse and representing him as he appeared in service in the Civil war. After the war he served his state officially for many years.

Near this park is the lake front water tower from which the water is forced out over the city. There are bubbling fountains all over the city and you can drink to your heart's content that is, if you do not want anything but water. Then there is Mitchell park with its wonderful sunken garden, and Gordon park with swimming beach and bath house. McKinley park on the lake and the South Shore park in the southeast part of the city are also worthy of mention. Then there is Humboldt park and Sherman park and Kosciuszko park. But with all they have here in the park line, none surpass Nichols park at home.

We have taken a trip on Grand avenue, which is in about the center of the city, going west from the lake into West Milwaukee, where the soldiers' home is located. There is certainly some business on this street. We first note the Boston store, which covers a half a block and is four stories high. Then there is the library building, which covers one full block and contains the Milwaukee museum, said to be one of the largest in the U. S. There is no use trying to tell you what all it contains in the way of curiosities from an elephant down to the smallest bird. There you can see how people lived in the days when the spinning wheel and hand loom were in use.

But this letter is far too long now and I will close.

Very truly yours,  
J. M. Summers.

YOU'LL GET RID OF BLACKHEADS SURE

There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them.

To do this get two ounces of calomel powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the skin that form in the pores of the skin. Pinching and squeezing only cause irritation, make large pores, and do not get the blackheads out after they become hard. The calomel powder and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anyone troubled with these unsightly blemishes should certainly try this simple method.

### MATHEW MINTER NOW IN LONG BEACH

Local Man Enjoying Visit at Home of Niece, Mrs. L. P. Anderson, in California City.

The following letter has recently been received from Mrs. L. Price Anderson of Long Beach, Calif., telling of the visit to her home of her uncle, Mathew Minter.

Mr. Minter arrived in Long Beach, July 22nd and was present at the Illinois Picnic held the next day, where he met many old friends. The letter from Mrs. Anderson follows:

"I am writing a few lines to let you know about our guest from our old home town. Mr. Mathew Minter arrived in Long Beach, Calif., on July 22 for a visit at the home of Mr. and Mrs. L. Price Anderson, 1515 Louisa avenue. Mrs. Anderson was formerly Miss Margaret Helenthal, a niece of Mr. Minter. Mr. Minter is greatly impressed with Long Beach, and with California in general. The climate and the flowers are wonderful.

"Our trip to the Catalina Islands and the submarine gardens was one which Mr. Minter especially enjoyed. One can hardly describe the wonders and beauties of this trip.

"Another delightful trip was thru the movie district. The Goldwyn studio is considered the largest and employs 1500 people. They operate both day and night.

"Long Beach is called the queen of the beaches, and has a population of 65,000. Its new \$1,000,000 Christian church claims the largest men's Bible class in the world—2,000 members.

Mr. Minter met many old time friends July 23 at the Illinois picnic, where 2,500 former residents of the state were gathered. Among those present that day were Mrs. F. E. McDougall, members of the Green family, the Sperry girls, Miss Babenhause, the Eastman family, Miss Harrison, and Mr. Bowe, son of John Bowen of Jacksonville.

There were many more former residents of Jacksonville and all were glad to meet their old friend.

Respectfully yours, Margaret Anderson.

SAID IT CAN'T BE DONE

"My experience with doctors and medicines caused me to lose faith in both, and when a friend told me that Mayr's Wonderful Remedy would cure my stomach trouble I told him 'it can't be done.' However, he finally persuaded me to try it and to my surprise it did. All symptoms of acute indigestion and gas having disappeared." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.—Adv.

## NEW SERVICE FOR BENEFIT OF PUBLIC

Chamber of Commerce Adds Free Information and Employment Bureau—Will Also Assist Tourists.

Secretary Harold Welsh announced Monday that three new service departments had been added to the Jacksonville Chamber of Commerce. All information and other service will be free of charge to all comers.

A tourists' information bureau has been established for the benefit of travelers. Road maps and other information which tourists need will be available at the Chamber of Commerce office.

Another department is for the benefit of strangers and others who are seeking to rent rooms. This is expected to prove valuable to a large number of people.

A free employment bureau has also been added. This will attempt to bring employers and employees together in as many cases as possible. Aside from the county farm bureau office, this is the only free employment bureau in Jacksonville. Last year at Charleston, Mr. Welsh succeeded in placing three hundred farm hands during the harvest season.

The Chamber of Commerce anticipates that many will avail themselves of the services of these new departments.

SECOND GAME WON BY THE WHITE SOX

Defeat Indians by Score of 9 to 5. Bunched Hits in First and Third Bring Victory.

Bunched hits in the first and third innings enabled the White Sox to score a 9 to 5 victory over the Indians at South Side park Sunday afternoon.

The Sox hit the ball hard thru-out the contest and in the third made eight of their twelve hits for a total of five runs. Eight of their hits were made off Padgett and four off of Hamm. The latter seemed to have something on the Sox when he got warmed up.

However, credit for the Sox victory might well be given to Paul Devlin. Twice by phenomenal stops he turned the Indians back when they started batting rallies. The first time was in the sixth with one run over and two men on the sacks. He speared Clark's drive that would easily have been good for two sacks and scored

two runs and turned the hit into a double play.

Again in the ninth with three runs over and only one down and Jones on second, Devlin grabbed Ruble's hard drive and got his man at first. It was as good as a sure thing that he would see in the big league or any place else.

Seymour, while touched for ten hits, received fine support from Devlin, Dickason, Cox, Morrow and Zell and they pulled him out of several bad places.

The Indians were rather shot to pieces Sunday. Denney and Wheeler were not in the lineup and this not only broke up the infield but also the outfield. It compelled Smith to move Ruble to second, put Burkery on third and DeFratres on short and Tom Doyle of Murrayville played first. While Doyle had a couple of errors it must be remembered that he has played only one ball this year. He still has his eye, however, and got two solid blows during the game.

How the Runs Were Made.

The Sox got busy in the first. Dickason was safe on Doyle's error. Zell attempted to sacrifice but hit to Padgett and Dickason was forced at second. Zell was safe at first and took second on Points' single. Morrow beat out an infield hit, Zell and Points moving up a base. Cox was out at first on a roller to Doyle, but Zell beat the throw to the pan. Shirley struck out. Another came in the second. After Seymour had gone out, Ruble to Doyle, Teaney walked. Devlin fouled to Burkery. Dickason hit one to short that DeFratres let dribble thru his fingers and Teaney went clear home. Zell singled but Points was out, DeFratres to Doyle.

The Sox got five in the third. Morrow was first up and beat out a hit to Ruble. He took second on a hit and run play when Cox singled thru short. He was caught at third on Christopher's relay, Clark to Burkery. Cox took second on the play. Shirley singled to right and Cox scored. Shirley taking second on the throw to the plate. Seymour doubled to left center and Shirley counted. Teaney doubled to right center, scoring Seymour. Hamm relieved Padgett and struck out Devlin. Dickason singled to center, scoring Teaney. Zell singled, sending Dickason to second. Points singled to left, scoring Dickason with the final run. Morrow then made the last out in the inning, rolling to Ruble.

In the fourth the Sox added another when Hamm hit Cox and then walked Shirley. Seymour singled to right center, scoring Dickason, who ran for Cox. The last run came in the eighth with-out the aid of a hit. Zell walked and stole second. A wild pitch put him on third and he scored on a fielder's choice.

The Indians did not get a run until the sixth. Ruble, first up, doubled. Christopher hit to Dickason, who tossed to Teaney to catch Ruble but the latter dropped the ball and all hands were safe. Doyle lined to White. Hamm singled to center scoring Ruble and sending Christopher to third. Clark drove one down the third base line and Devlin made a wonderful stop and threw him out at first. Christopher attempted to

score and Morrow's throw caught him at the pan.

Ruble's single and Doyle's triple scored a run in the eighth. In the ninth the Indians made a determined rally. Clark, first up, was hit by a pitched ball. Burkery hit to Devlin but Teaney dropped the throw at second and both runners were safe. DeFratres' single moved both runners up a peg. Jones hit to right and Charley White ran under the ball, allowing it to go for a single and Clark and Burkery scored. Jones taking second on the throw in DeFratres' take second on the hit and went to third when Teaney let the throw get away from him. Jones struck out but DeFratres scored on Ruble's out, Devlin to Morrow, the Sox third sacker again making a brilliant stop and throw. Christopher ended the game by striking out. The score?

## Daily Market Report

### STERLING EXCHANGE

#### MAKES BIG JUMP

By Associated Press. NEW YORK, Aug. 8.—A rise of more than eleven cents in sterling exchange was the outstanding feature of today's financial markets. The rate advanced to 3.71½ as against Saturday's close of 3.60½ a gain of about 16c over the low point of the last fortnight.

In the stock market the movement was irregular on light trading, and net changes were unimportant.

The unusual upturn in sterling was not associated with any specific developments of the day. The recent arrivals of gold from abroad, altho of undoubted influence on the course of the exchange, hardly accounted for the sudden marking up of sterling. Before the opening the cables brought news of an advance of three cents in London, and with the beginning of trading here the rise was carried forward rapidly, closing around the highest of the day.

Short covering was regarded as the chief factor in the movement. Speculative selling in anticipation of such an increase apparently was over-extended placing the market on such a strong technical basis that the shorts were caught in an exposed position. Other foreign exchange rates were strong.

The strength of sterling affected the stock market, after an early decline. Quotations eased off in the forenoon. Late in the day the market stiffened under the influence of sterling's sustained buoyancy and buying of rails. Sales amounted to 280,000 shares.

Notwithstanding the large increase in surplus reserves showing in last week's bank statement there was no relaxation of money rates. Call funds ruled at 6 per cent. Liberty bonds were irregular.

## STORY FAMILY HELD REUNION HERE

Large Number Gathered Sunday at Nichols Park—Officers Elected For Coming Year.

One of the well known and prominent families of the county is named Story and has a record of which they may well be proud. The family in colonial days set led east of the Alleghany mountains. The first pioneers came over in the Pilgrim Mayflower ship landing at Plymouth Rock in 1620. Later they crossed the mountains and settled for a time in Tennessee till 1824 when they came to this vicinity. The first of them was Parrish G. Story and wife, Mary Duncan Story, cousin of Gov. Joseph Duncan of this place. They hauled their household goods in an oxen drawn wagon while Mrs. Story rode a horse and carried the two children. They settled in the north part of Greene County, eight miles south of Murrayville and later other members of the family followed.

Those were indeed primitive times when a log house with one or at the most two rooms sheltered a family and guests were always welcome, too. Comforts were not missed because they were not known but good cheer and hospitality, industry and integrity were prominent characteristics.

Other members of the family continued to come till the Story settlement reached from Ceres, in the north part of Greene county for five miles into the borders of Morgan county. At one time when there were fifty-one pupils in the Greasy Prairie school, thirty-eight were named Story.

At the picnic or gathering Sunday of there were present of the family of William Story 29; of Joseph Story 18; Bradford K. Story, 16; Frank Story, 8; A. J. Story, 4; Porter Story, 4; Elizabeth Story, 6; Henry S. Story, 3; James Story, 12; Nancy Story Hughes, 9.

The gathering Sunday was very delightful, many meeting for the first time in years. The time was spent socially till dinner was ready and then the large company assembled about the fine bill of fare provided. All was strictly first class, abundant in quantity and of a quality leaving nothing to be desired.

As a whole it was a day long to be remembered by all present and it was enthusiastically decided to have another reunion the first Sunday of August, 1922.

Mr. and Mrs. C. H. Story and Mrs. J. T. Wilson had special charge of arrangements Sunday.

It was decided to organize with election of officers, as follows:

President—Francis W. Story, Murrayville.

Secretary-Treasurer—Thomas J. Wilson.

Historian—Chas. H. Story.

Story and son Harry Garner, Mr. and Mrs. James P. Story and family, Henry W. Story, Miss Maggie Bogges, John A. Bogges, Mr. and Mrs. B. R. Story and family, Mr. and Mrs. Frank Story and family, Mr. and Mrs. Joseph Story and family, Mrs. Elizabeth Story, Thomas Spencer, Porter Story, Francis Walker Story, Martha Spire Story, Harriet Story Seymour, Gus Seymour, Mr. and Mrs. Frank Webster and family, Mr. and Mrs. Harvey Wilson, Mr. and Mrs. Robert Fanning, and daughters, Robert, Edith and Ella Burnett, Nettie Burnett, Bessie Correa, Benjamin Correa, Eliza Murphy, Joe and Lula Barnhart, William Ragan, Rebecca Parris, Rose Seymour, Elizabeth Travers, Myrtle Kidd, and son, of Granite City, Nancy Birdsell, and sons Louie and Floyd, Henry Smith, Fred Travers, James Seymour, Daisy Seymour, Stacey and Leland Story, and a number of guests.

## MARTIN FAMILY HELD REUNION

Earlier Days Recalled As Members Met Sunday—Organized For Another Year.

The annual reunion of the Martin family was held Sunday at Nichols park and it proved to be a most enjoyable occasion to the large number in attendance. The weather was ideal for such a gathering and the arrangements were such that nothing was overlooked which would add to the pleasure of the day.

Dinner was served at 1 o'clock and the array of eatables spread upon the table was a tempting one. It is needless to say that this feature of the day was one which all enjoyed to the utmost.

Nichols, Mrs. Mollie Weber, Carl Weber, Dr. Louis Dunavan, of Chicago, and others.

The remainder of the afternoon was enjoyed socially and at 6 o'clock the tables were again spread and supper served.

## CITY COUNCIL AGAIN TALKS ABOUT WEEDS

Much Time Spent Discussing This Problem—Number of Minor Matters Are Given Attention.

Much of the time of the city council session Monday evening was spent in discussing the question of noxious weeds and several property owners' names were reported and notices ordered sent to them.

Aside from this discussion, Mayor Crabtree reported that the purchase of the land from Mr. Thiess for Diamond cemetery had been consummated. The mayor also reported that a tentative agreement had been reached with John Middendorf relative to the purchase of land adjacent to Lake Mauvaisterre.

Roll showed all aldermen present except Aldermen Chapin, Rowe and Williamson. The minutes of the last meeting were read and approved.

A petition of W. H. Cockling asking permission to build two tanks for gasoline and kerosene on his lot on Webster avenue was referred to the public improvement committee with power to act.

A report was submitted of noxious weeds growing on the lot belonging to Dan McLamar, 643 North Sandy street. It was referred to the police committee.

Mayor Crabtree presented a communication from Superintendent Karmes of the Wabash railroad saying orders had been given to engineers of the road to avoid unnecessary blowing of whistles at the junction. One also was read from Morris Anderson, mayor of Hannibal, relative to street fairs.

Claims against the city were ordered paid.

Ald. McGinnis, for the highway, reported that arrangements had been made for the strip of ground on North Clay avenue to widen that thoroughfare.

Talk About Weeds.

At this point the council entered into an extended discussion of the weed problem. Weeds were reported growing on lots belonging to C. A. Young, Dr. P. L. Brown, and a lot at the southeast corner of Webster and Mound avenues. These were referred to the police committee for action.

Mayor Crabtree reported completion of the purchase of the land from Mr. Thiess for Diamond Grove cemetery.

Ald. Longergan brought up the matter of a bad place in the sidewalk in front of the place of business of George Rodrigues in West Court street. It was referred to Superintendent of Streets White with power to act.

The bond of Walter Belatti, city attorney, in the sum of \$1,000 with the United States Fidelity and Guaranty company as surety was presented and approved and placed on file.

Mayor Crabtree reported to the council that John R. Middendorf had agreed to sell the city seven and three-tenths acres of land adjacent to Lake Mauvaisterre for \$250 per acre and 100 for a cow lost by drowning. The total cost is \$1,825. This matter was left with the mayor with power to act.

No further business appearing the council on motion adjourned.

### A PAINFUL INJURY.

Edward Anderson, a boy of about nine or ten years, the son of Oscar Anderson, residing near Virginia, suffered a painful injury Sunday. He was visiting his grandfather a few miles north of the city and toward evening they observed him coming to the house with his face covered with blood. Examination showed that his nose was badly broken and his left eye seriously injured. He could hardly give a coherent account of the cause but said he fell over a stump. The supposition is that he was running and

stumbled, falling on a root or hard substance of some kind. He was taken to a doctor and then to his home where he will be laid up for repairs for some time. He is a nephew of Mr. Partello of Brady Bros. hardware store.

### VISITORS FROM ALABAMA.

Mr. and Mrs. D. K. Duke and children of Pisgah were arrivals in the city yesterday. They were accompanied by Mr. Duke's parents, Mr. and Mrs. J. A. Duke, of Alexander City, near Birmingham, Alabama. The visitors have found the past few days rather cool for comfort but had they been here a week or two sooner they would have had no trouble from that score.
